PROGRAMMER/SOUND DESIGNER & DIGITAL AUDIO EDITOR

February 27, 2003

Christie A. Kearns, Director of Product Development
Keyland Amp Co.
1003 Sunnyvale Ave.
Atlanta, GA 40023

Dear Ms. Kearns,

After reviewing the **Sound & Product Design Specialist** job posting at Berkleemusic.com, I was immediately interested. The requisites for the position match my own skillset precisely. Since graduating as a Music Synthesis major from Berklee College of Music, I have worked the past four years as a sound designer, consultant, and programmer for film, television, recording studios, and professional concert tours. This experience would directly translate and undoubtedly prove to be an asset in designing keyboard amplifiers at Keyland Amp.

Frequently, in my sound design work, I have utilized schematics and various electrical engineering and audio/acoustical test equipment, including oscilloscopes, function generators, and Audio Precision equipment for frequency and sound pressure level measurements, signal flow, EQ, and compression adjustments. As an accomplished musician who received a prestigious Piano/Keyboard Performance Scholarship from Berklee College of Music in Boston, Mass., I have a clear understanding of the performing, technical, and tonal needs of keyboardists. I would be able to apply this knowledge when designing quality and efficient keyboard amplifiers.

In addition, I have conducted numerous recording sessions using ProTools, Digital Performer, and Sample Cell. I am also knowledgeable at working in a digital or analog audio environment, and at using effects processors to find sonic design solutions.

It would be a pleasure to contribute my own sonic engineering and problem solving skills to your amplifier design team and help achieve Keyland's product development goals. For your review, I have enclosed a resume that provides more detail about my professional experience. I will call your office in a few days to see if we can arrange a time to meet to discuss the opportunity further. Thank you in advance for your time and interest.

Sincerely,

Mary Elaine Lindell
